Teat direction (rear)	outwards						105	inwards
Udder cleanness	add. teats						102	clean udder

Liese, dam of Canyon

CANYON is the choice for farmers that value fitness traits! The Cadura son delights with high values for longevity, fertility, persistence and udder health. He brings the late maturing cow with a steep rear leg set and strong pasterns. Taking into account the stroke length, it can also be used as a complete udder sire. In this area, his daughters delight with tall, wide and solid udders. High organic index!
