born: 07.03.2015

Breeder: Arndt & Sohn GbR,

Bottmersdorf, Germany

A.I. stud: RinderAllianz GmbH

DANN No: 152B09343

homozygous polled (PP*)

RinderAllianz GmbH offers a bull

suitable

for use on heifers: DEMARCO

DEMARCO is a very correct, medium-sized bull with excellent conformation and best feet & legs. His pedigree includes sires with outstanding type and highly positive beef production both on the maternal and paternal side. Demarco himself excels with very good appearance and enormous growth potential. He is far above the average in Germany regarding his daily weight gains.

Through the combination of his bloodline, Demarco is a bull with best outcross qualities and, therefore, can be recommended for widespread use. The latest parental information speak for this bull in terms of trouble-free, easy calvings and matings of heifers. This bull can be used for both pure and cross breeding.
