Fleckvieh MAESTRO Pp dam
Dorthe 2.lac.

MAESTRO Pp is one of the most complete polled Fleckvieh bulls, which stands out with excellent genomic breeding values. In addition to a high milk performance, he promises fitness-strong daughters with appealing conformation. Above all, the udder inheritance with optimal teat position is striking. In addition to the exceptionally strong mother, grandmother and great-grandmother are still on the farm and underline the fitness strength of this Fleckvieh cow family. With the combination of Mahango Pp x Odes x Weintor x Gebalot, Maestro Pp offers an attractive pedigree thus he can be recommended for many matings.
